

EDUCATIONAL INSTITUTE

Dear Possible Partners,

We would like to introduce You to [DOREA Educational Institute](#) - a NGO which is focusing on adult and youth personal and professional development with tools of non-formal and socio-cultural education. We invite you to join one of our Erasmus+ KA1 (youth workers mobility) projects:

Project title: **MILES IN MY SHOES**

Project: The rising number of people entering Europe in search of safety and in search of a better life has captured the world's attention with scenes of heartbreaking tragedy. Travelling hundreds and thousands of miles over land and over water, from Africa, the Middle East and Asia, people are risking everything in the hope of reaching their goal, and the danger does not end at a border crossing.

The main aim of the project is to increase the quality of youth work services for migrants and refugees by equipping youth workers (coordinators, facilitators, mentors) with competencies in facilitating experiential learning.

The project is based on an intensive experiential learning process to reach following objectives:

- to enable participants to go through an experiential learning process and reflect on its different steps;
- to gain understanding on how to turn experience into learning and how to make it relevant for the needs of young migrants and refugees;
- to provide participants with educational tools and methodologies that will enable them to act as multipliers on refugee related issues in their work with young people;
- to enable participants to make informed decisions regarding their work on refugee related issues;
- to explore the dimensions of diversity in refugee related issues.
- to increase the knowledge of the background to experiential learning (theory, concepts, steps, philosophy);
- to increase the practical facilitation skills in experiential learning cycle (in various settings-beyond workshop context);
- to develop practical skills in designing and implementing experiential learning activities;
- to recognise the link between practical experiences and competencies gained for improving integration of migrants and refugees.
