

# Be smart, be tolerant!

2nd Newsletter

## Training in Cyprus

Participants dived into different media types, unravelling the history of propaganda, exploring techniques, and dissecting disinformation in the age of big data and social networks. They tackled complex topics like deepfakes, mathematical weapons of disinformation, and the use of statistics in fake news.

## Training in Italy

Youth workers immersed themselves in a dynamic training course focusing on "Gamified Non - Formal Activities" and their power to boost youth motivation and critical thinking. The sessions were packed with innovative strategies and engaging activities that they can use in the local workshops.

## Upcoming activities

The "BEST" training toolkit is on the way! The toolkit will consist of three chapters, offering a blend of theoretical insights and practical knowledge that is essential for empowering youth workers to effectively address the challenge of fake news.

The toolkit will be available in English, Romanian, Spanish, Italian and Greek languages.
